Bill reported on his email communication with Mark Blout of the US Air Force in reference to Mt. Horace Greeley. He may come up in May. Mark Petrie of the DEQ is interested in joining if Blout visits. Ray brought up three subjects which should be addressed at a site visit – ground water treatment, liability for injury on the property, and lead paint problem. Mark suggested a water well be drilled for a clean water source. Steven brought up the possibility of buried barrels in the ball field. Bill mentioned that there are shallow surface sites throughout, that need to be cleaned up. Steven added that there is a surface drain system that needs investigating. During discussion a question arose as to whether the US Air Force would pay a local engineering firm to provide over site of the work to be done.

Bill will contact Mark Blout in the next two weeks about when he will come to visit the site and meet with Authority members.

Steven asked for public comment at 7:25 pm. There was no public comment.

Mark moved, Ray second, to change the start time for all future Authority meetings to 7:00 pm. Passed unanimously.
